Te Kura Takawaenga o Kamo

Celebrating Science, 4:00 – 6:00pm Thursday 26 June 2014 Kamo Intermediate School

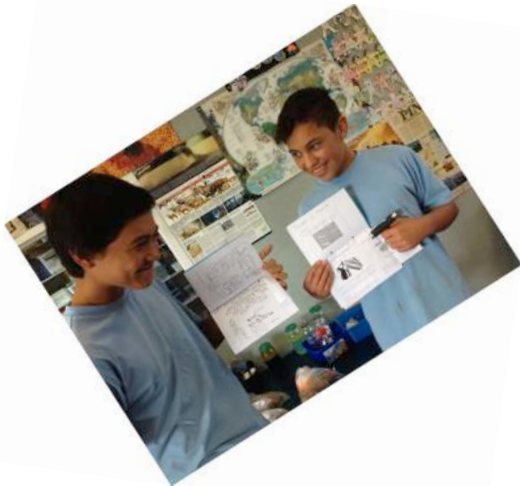

Attention parents, caregivers, friends, colleagues

Come and help us celebrate science learning at Kamo Intermediate School.

Visit all the classes to see what science learning has been happening this term.

Visit the hall and take part in some fun experiments run by Kamo High School students.

Look at the displays our students have made, showing how local people use science in their jobs and everyday lives.

We would love to see you come and help us celebrate our students' learning.
